

THE C.A.R.E. CHANNEL

TRANSFORMING CARE AT THE BEDSIDE

Continuous Ambient Relaxation Environment™

During your stay with us, we will be providing the best possible medical care for you. We want you to know that we are aware of the emotional and personal challenges that are part of any hospitalization.

Turn on The C.A.R.E. Channel instead of regular television to be comforted by beautiful nature imagery and soothing instrumental music. It can help you or your loved one rest comfortably, feel less pain, and sleep better.

Developed especially for you and your family during your hospitalization, The C.A.R.E. Channel helps turn your room into a place that heals. It's available 24-hours a day, changing from daytime images to a star-filled night sky to help you sleep.

Creating a place that supports your health and well-being is important to us.
